DURIGUTTI
FAMILY WINEMAKERS EST. 2002

With its stunning view of the mountain range to the west and the hills surrounding the vineyard, this 1800 m2 green area bordering the dam and surrounded by vineyards is eminently suitable for large scale events in the open air or under canopies or other temporary structures with the authorization and supervision of the winery. Recommended for events in daylight, at night or to coincide with the magnificent sunsets.

At the entrance to the sector called "Las Aguas - Meeting Point" there is a dry plaza that blends in with its surroundings and is ideal for receptions and also has a pergola for civil ceremonies. The open space borders a 7 thousand liter reflective pond, a harmoniously designed dam seamlessly integrated into the natural vineyard landscape and a sustainable source of water for the entire vineyard.

Corporate meetings, cultural and sporting events, weddings, birthdays and other social occasions are all welcome in this extensive green space.

The space is available to be rented as a venue on its own, while our team also offers event planning and organization services.

The vineyard has its own private security and ample parking spaces between the rows of vines.
